

Your North American Inland Solution: On-dock service at Port Houston via Union Pacific

Discover seamless inland transportation with Hapag-Lloyd and Union Pacific! Trust us to deliver your cargo from port to door, ensuring peace of mind throughout the journey. Union Pacific's new on-dock service connects the Barbour's Cut Container Terminal at Port Houston to key areas, including Denver, Salt Lake, Oakland, Los Angeles, and El Paso.

Our Offer

- **Flexible Departure Days:** Three weekly inbound and outbound connections on Tuesdays, Thursdays, and Saturdays, mean no more waiting! For information on cut-offs, please refer to the Union Pacific [website](#).
- **Faster Transit Times:** Time is of the essence, and we understand that. For imports and exports, the transit times to/from the various destinations are as follows:
 - El Paso - Santa Teresa Intermodal Terminal, NM: 4 days
 - Los Angeles - ICTF Intermodal Terminal, CA: 5 days
 - Salt Lake City - Salt Lake City Intermodal Terminal, UT: 7 days
 - Denver - Denver Intermodal Terminal, CO: 9 days
 - Oakland - Oakland Intermodal Terminal, CA: 10 days
- **Swift Loading:** Our on-dock operations at Port Houston ensure a seamless transfer of containers directly from/to ships to/from flatcars, saving you time and eliminating the need to transfer to a separate intermodal facility. Experience significant improvements in Port Houston's container transfer performance, guaranteeing smooth cargo handling and timely deliveries.
- **Direct Access:** Enjoy convenient connections with our AL4 (North America to/from Europe), GCS (North America to/from Latin America), EC6 (Asia to/from North America), GM8 (North America to/from Mediterranean), and GS1 (Latin America to/from North America) services, offering direct routes to/from major regions.
- **Streamlined Communication:** Experience easy and efficient communication with our dedicated Inland Delivery Team (IDT), serving as your single point of contact for your entire inland supply chain.
