

Hapag-Lloyd Inland Services

Colombia

From door-to-door

With Hapag-Lloyd Inland Services we want to improve your multimodal inland transportation experience in Colombia – from the point of origin of your goods all the way to their final destination.

YOUR BENEFITS

- Fast inland service – on time at your destination.
- Less documents to approve and better cost optimization.
- Updated cargo information through inland process with a centralized customer service team.
- Fewer cargo movements in the ports of discharge.
- Extensive inland service options from pick-up at the shipper's warehouse all the way to CNEE's final delivery zone.
- A highly qualified team that is always at your side.

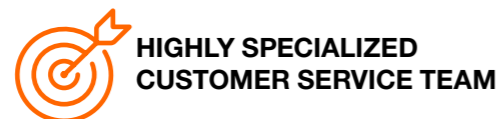

Your truck services at a glance

OUR OFFER

- A complete door-to-door service from booking to final delivery.
- Excellent connection to the main ports of Colombia and access to the most relevant markets for your import and export shipments.
- Cargo updates providing real-time information about your cargo movement.
- Door-to-door rates online through our digital solutions Quick Quotes and Hapag-Lloyd Navigator.

YOUR BENEFITS

- Save time and costs by avoiding delays.
- Use our inland depots to have better container availability near your customer's warehouse – at pick-up or at final destination in Colombia's main cities.
- No risk of drop-off costs or container deposit payments.
- Decrease the risk of paying for container demurrage or detention.
- Include cargo insurance service via subrogation.

Quick and Easy: Our Web and Mobile Booking Solutions

HAPAG-LLOYD NAVIGATOR: EVERYTHING AT A GLANCE

Keep an overview of all your shipment information: Get live data on your shipments yourself and find all important documents in one place.

QUICK QUOTES: BOOST YOUR BUSINESS

Get instant, competitive rate quotation in less than 30 seconds and submit your bookings with just a few clicks. Manage your import and export requirements via our online platform. It will provide you with quotes including pick-up service in the main cities of Colombia.

It's fast, easy and available anytime, anywhere.

Simply log in to the system using your user name and password and select your start and end location.

Take a look at the below example – selecting the end location and the transport option “Delivered at your Door” will generate a quote within just a few seconds. You will also be able to send the quote directly to your email address in a PDF format.

Barge Service between Cartagena and Barranquilla / Barrancabermeja

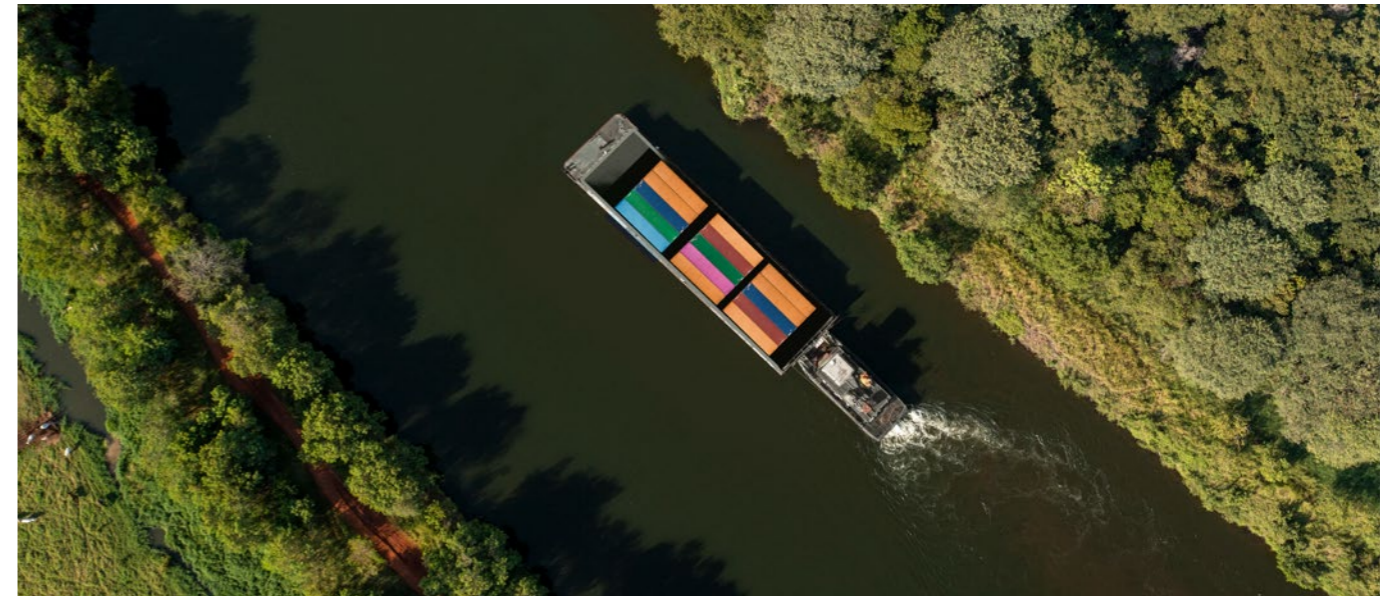

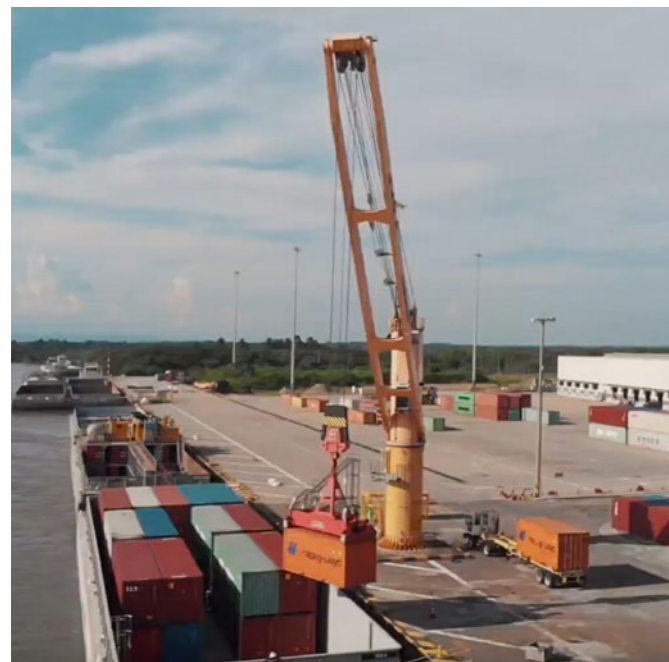

Coffee, general cargo, project and oversized cargo and much more – with our service from the river port of Barrancabermeja, we offer an excellent weekly barge connection for all types of goods to the Port of Cartagena. The close proximity to Colombia’s main cities allows for many on-carriage opportunities with superb transit times.

RIVER PORT OF BARRANCABERMEJA

- More than 50 hectares, with 12 hectares being an open yard.
- More than 5,500 sm of covered warehouses with a capacity of 190,000 TEU.
- Global coverage via Cartagena.
- No dredging restrictions.
- Efficient service.

SPECIAL COFFEE HANDLING

- Stuffing and unstuffing service with two modern elevators to guarantee efficient handling of the coffee.
- Coffee weighing: Two electronic scales allow for an agile and efficient information management in real time during the weighing process.
- Bulk coffee packaging.
- Coffee packaging in sacks.
- Fumigation service.

OUR OFFER

- Excellent connection to the main ports in the Caribbean area and access to the most important markets for both imports and exports.
- Only four days of transit time for export and five days for imports to and from the ports of Cartagena.
- Door-to-door rates online through our digital solutions Quick Quotes and Hapag-Lloyd Navigator.
- Many large areas for stuffing, unstuffing, cargo moving and storage of containers.
- Stuffing and unstuffing of FCL and LCL containers as well as loose cargo storage.

YOUR BENEFITS

- Time and cost savings by avoiding delays in the customer’s supply chain.
- Connection to the most important operating ports in the Caribbean, linking to our global deep-sea services.
- Profound experience in handling coffee for export processes.
- Privileged location with close proximity to the main cities of the country, reducing delivery times and providing international transshipment connections.
