

Avantida reUse - Malaysia

August 2022

Dear Valued Customer,

With effective August 1, 2022, we will be offering re-use container management service in Malaysia through extended partnership with Avantida. The service also known as “street-turns” by Avantida is an online platform that enable you to optimize transport planning in a much simpler and more efficient way.

The cooperation between Hapag-Lloyd and Avantida started almost 8 years ago in Benelux at January 2014. Since then more countries have been successfully introduced to the platform which contribute values in our global footprint.

The platform which available for:

reUse, allow direct use of an import container for a local export shipment without going to a port or depot to pick up empty container. Customers and Truckers can simply identify potential street turn by inserting request into the platform.

*Rate applies: Fees are charge subject to requested location (Payment will be made through pre-paid via vouchers purchase in platform)

The key benefits:

- Optimize logistic planning
- Avoid congested areas round ports
- Avoid waiting time at depots and terminals
- Save on transport costs
- Reduction on global carbon footprint

To learn more and sign up please visit via website at <http://platform.avantida.com/>

For further enquiries, please reach out to your nearest location of Hapag-Lloyd customer service, or contact Avantida customer support at <https://support.avantida.com/en/support/home>

Kind Regards,

Hapag-Lloyd Malaysia
