Enhancements of the Mediterranean Gulf Express (MGX) Service

May 14, 2019

Dear Customer,

In order to further optimize our service network, the rotation of our MGX service will be adjusted from June onwards.

An additional eastbound call to Algeciras will be added, supporting your direct business as well as connecting cargoes. Miami will no longer be covered by the MGX but served by the direct call on our AL6 service.

In addition, we will also add calls at the hub ports of Cartagena and Kingston and change the Caucedo call to eastbound. This will further improve connectivity to Latin America, details will be provided via separate CustomerInfo.

The first sailings with the new rotation will be as follows:

- Westbound: MV Venetiko 14W24, departing from Livorno **June 12, 2019**
- Eastbound: MV Venetiko 15E27, departing from Veracruz **July 7, 2019**

For the specific rotation, please refer to below map.

For further information, please contact your local Hapag-Lloyd office.

Kind regards,

Hapag-Lloyd AG
