

Rail interruption over the Parma / Bologna junction

July, 15th 2024

Dear Customer,

Regret to advise that, due to the railway accident occurred on Thursday 11th July evening the Parma / Bologna rail junction is currently still interrupted, and the area is seized by Authorities for mandatory surveys.

Being the junction crucial for the rail corridors over Padova and Modena area, current situation will cause several trains departure cancellations, as tracks are not accessible.

Refurbishment works will start as soon as possible: a full recovery and reopening is expected by 22nd July, but this is to be confirmed.

Will keep you posted about developments: please do not hesitate to contact our dedicated customer service team at italy@service.hlaq.com if you require further clarification.

Thank you for your continued support.

Kind regards
Hapag-Lloyd (Italy)
