

Strada Statale 47 Valsugana closed to heavy traffic due to landslide

22nd January 2024

Dear Customer,

Due to a serious landslide occurred, **Strada Statale 47 / Valsugana** has been closed with immediate effect to the transit of heavy traffic.

The road will remain closed to the end of civil works to restore the transit, expected beginning of March 2024.

For all the positionings from/to locations north of San Marino di Valbrenta (Trento and Bolzano area), currently routed over Padova ramp, we will be forced to use the alternative **road A22 / Brennero**, with a diversion that implies extra-mileage and additional costs.

If you require further clarification, and quotation of additional charges for transports in the mentioned area, please do not hesitate to contact our dedicated customer service team at italy@service.hlag.com.

Thank you for your continued support.

Kind regards
Hapag-Lloyd (Italy)
