Hapag-Lloyd South Africa – TPT – Direct Discharge DG Restrictions

Dear Valued Customer,

Kindly take note of the below highlighted UN's for Class 4.1 and Class 5.1 to be treated as "direct delivery".

When we have these Classes on board our vessels, we must have the trucker available on standby to collect the container.

Should the haulier not be available, the vessel will go on standby and a crane hire cost of ZAR 35 000.00 per hour will be applied.

This charge will be for the account of the consignee.

CARGOES THAT MUST EXIT THE TERMINAL WITHOUT DELAY (DIRECT TO RAIL/ROAD TRUCK FROM SHIP OR DIRECT TO SHIP FROM RAIL/ROAD TRUCK).		
d.	Class 4.1	Flammable Solids: UN 1944 Safety Matches Only endorse for direct delivery
		Oxidizing Agents: UN 1748 CALCIUM HYPOCHLORITE no police permit UN1448 Barium permanganate UN1485 Potassium chlorate no police permit UN1495 Sodium chlorate UN1513 Zinc chlorate UN1942 Ammonium nitrate UN2067 Ammonium nitrate fertilizers
f.	Class 5.1	UN 2880 Calcium hypochlorite No police permit

Best Regards,

Keep in touch
