

SHIPPER'S DECLARATION Second-hand Vehicle Parts / Second-hand Machinery
--

FIS Booking/Ref		Vessel	Voyage No
-----------------	--	--------	-----------

<b>Full description of cargo</b>
----------------------------------

<b>Is the cargo packaged? Please describe fully</b>
---

<b>How will the cargo be stowed and secured in the container? Please give details and confirm that all residual oils have been drained from the cargo.</b>
--

**NB:**

1. *The maximum payload can only be utilised if the cargo is spread over the whole length of the floor.*
2. *Maximum floor load limits are 4.5 tonne per line metre for 20ft and 3 tonne per line metre for a 40ft.*
3. *All cargo must be secured using materials suitable for the size and weight of the load. Timber bracing must be used for heavy cargo such as machinery - the heavier/taller the load, the higher and more substantial the bracing.*
4. *The lashing points have a capacity of 1000kgs, so the use of spansets as the sole means of securing should be restricted to light cargoes only. Please note that spanset must be protected over sharp edges.*
5. *Please remember that the container is not a packing case - all cargo must be secured unless it is self chocking and not liable to cause damage to any part of the container.*
