## Benefit from our experience

It's not just at sea where Hapag-Lloyd can draw on its more than 165 years' experience, which our motivated employees around the world put to use for our customers every single day. Hapag-Lloyd also has many years of expertise in the important pre-carriage and on-carriage transport to and from the seaports.

Many thousands of customers entrust us with the smooth transportation of their cargo as part of what's known as carrier's haulage. At the European North Range ports alone – from Hamburg and Bremerhaven via Rotterdam and on to Antwerp – our experts organize several hundred thousand reliable pre-carriage and on-carriage shipments every year. This expertise has a name: Hapag Logistics. Benefit from our experience – let us take care of the smooth and fast transportation from door to door.

## Faster and more efficiently to its destination

Our staff don't just know the fastest route and the best mode of transport for your cargo on land. When organizing pre-carriage and on-carriage transport, they also keep the most environmentally friendly means of transport in mind – from inland waterways to rail or road. In doing so, Hapag Logistics combines the various carriers efficiently. This increases your productivity while at the same reducing the environmental impact of your shipments and products.

## Proven Hapag-Lloyd quality through long-standing partners

The high standards of quality that Hapag-Lloyd upholds at sea also apply without restriction on land at Hapag Logistics. We ensure this by means of long-standing partnerships with reliable, tried-and-trusted service providers. As a result of the large volumes that Hapag Logistics transports in Northern Europe, you also benefit from attractive pricing.

## Keep it simple – even across borders

Avoid unnecessary inefficiencies in the transport chain by having one single point of contact for the entire transport chain – from start to finish. With carrier's haulage shipments, you get everything from a single source. We don't just take care of smooth transportation on your behalf, but also handle all customs and other such formalities, because pre-carriage and on-carriage transport often extends across national borders. With our numerous offices and experienced, native-language staff in countries such as Poland, the Czech and Slovak republics, Hungary, Austria, Switzerland and France, your cargo is in the safest hands.

### Your benefits with Hapag Logistics:

- Proven Hapag-Lloyd quality in pre-carriage and on-carriage
- One point of contact for the entire transport chain
- Avoidance of unnecessary delays on land
- Optimal combination of land-based modes of transport
- Attractive prices and short transit times
- Top customer service thanks to experienced staff and local offices
- Handling of all customs and clearance formalities
- An optimized carbon footprint protects the environment
